

March 20, 2020

To Whom It May Concern:

Emergi-Clean is an authorized provider of Binary Ionization Technology (BIT) Solution. This EPA (90150-2) and FDA registered (3012117386) Hospital Healthcare Disinfectant has been designated by the EPA on List N: Disinfectants for Use Against SARS-CoV-2.

The White House recently declared that companies involved in the supply of healthcare services have a special responsibility to maintain operations. As a result, TOMI Environmental Solutions and its TOMI Service Network (TSN) partners including, Emergi-Clean, are essential to the continued operation of the U.S. health care system at this critical time. Any disruption could potentially severely impact hospitals' abilities to provide the necessary and appropriate disinfection activities and subsequent healthcare treatment to patients nationwide.

Please prioritize Emergi-Clean's activities to ensure uninterrupted supply of this product to hospitals, FEMA, nursing homes and mission critical infrastructure.

Please direct any questions to Paul Varga at the contact information below:
